Palembang, Sumatera Selatan, 30257.

A Systems Information graduate with diverse interests in technology, design, and quality assurance. Skilled in Python, SQL, UI/UX design, and visual communication. Passionate about software testing, data analysis, and creative problem-solving. Experienced in collaborative work, creative and analytical thinking, and adapting quickly to industry trends. Open to new challenges and always striving to deliver designs that are not only visually appealing but also highly functional.

## Education

---

**Universitas Sriwijaya - Palembang, Indonesia**

July 2017 - Oct 2021

*Bachelor Degree in Computer Science, GPA 3.42/4.00*

**Final Project:** *The implementation of data mining to predict the prices of NPK fertilizer raw materials using time series data (Case Study: Pupuk Sriwidjaja Palembang)*

- Familiar with various concept and skills related to both computer science and information system such as Information Systems Analysis and Design, Web Development, Database Management Systems (DBMS), and UI/UX design.
- Experience in building web application
- I'm proficient in Python, C++, SQL, Figma, Canva, UML, ERD, and basic web development (HTML, CSS, JavaScript).
- Actively involved in HIMSI (Himpunan Mahasiswa Sistem Informasi) from 2017 – 2018
- Selected to take part in the ARS National Seminar, the Annual National Seminar of the Faculty of Computer Science, UNSRI with a project entitled ANALYSIS AND DESIGN OF “EATZY” APPLICATION ON ANDROID-BASED MOBILE DEVICES USING RUP METHOD

## Work Experiences

---

**CV Boga Kaya Rasa – Offline**

**Duration :** 14 September 2024 – Now

**Position :** Visual Communication Designer - Marketing Department

## Internship Experiences

---

**Nuri** – Remote/Online

**Duration :** Sep 2023 – Oct 2023

**Position :** Project Based Intern : UIUX Designer Virtual Internship Experience

PUSRI  
PUPUK SRIWIDJAJA  
PALEMBANG

**Duties and Responsibilities:**

- Gained a comprehensive understanding of Design Thinking principles, including defining problems, empathizing with users, ideation, Wireframing and Prototyping.
- Applied empathetic design techniques to deeply understand user needs and pain points, fostering a user-centric approach to UI/UX design.
- Executed wireframing activities to create low-fidelity representations of user interfaces, focusing on information architecture and user flow optimization.
- Progressed to prototyping stages, using industry-standard tools to translate wireframes into interactive, high-fidelity prototypes for user testing and feedback.

**Project**

[Final Task Report Virtual Internship Experience Program](#)

**PT. Pupuk Sriwidjaja** – Palembang, Indonesia

**Duration :** Sep 2020 – Feb 2021

**Position :** Data Scientist Intern -IT Department

**Duties and Responsibilities:**

- Implemented web scraping automation using Selenium framework to gather time series data for analysis.
- Developed and implemented a time series model to predict the price of NPK fertilizer raw materials, contributing to improved cost forecasting with Python.
- Conducted data cleaning, data visualization, and data mining to extract relevant insights from diverse datasets.
- Collaborated with senior data analysts to interpret trends and patterns in the data and provide actionable recommendations.
- Utilized SQL to query and manipulate databases for data retrieval and analysis.
- Designed interactive data visualizations using Streamlit and HTML to present project findings.
- Utilizing the Windows Task Scheduler to automate scraping tasks, ensuring the program runs seamlessly on a monthly basis.
- Communicated project progress and results effectively in both written reports and oral presentations.

**PT TELKOM INDONESIA** – Palembang, Indonesia

**Duration :** Nov 2019 – Dec 2019

**Position :** Student Internship

**Duties and Responsibilities:**

- Analyzed the SMILE application for data collection orders at Optima Access and Maintenance divisions, enabling data-driven decision-making.
- Assisted in interpreting and presenting data analysis results.

---

## Skills

---

- System Analysis & Design:** UML, Flowchart, DFD, PDFD and ERD
- Programming Languages:** Java, Python, SQL, PHP, C++, CSS
- Database Management:** MySQL
- UIUX Design:** Adobe XD, Figma
- Project Management:** Agile, Scrum
- Tools:** Microsoft Office, Android Studio, Figma, Streamlit, Tableau, Adobe XD, Power Designer
- Soft Skills:** Analytical Thinking, Problem-Solving, Communication, Team Collaboration
- Languages:** Indonesian and English (Toefl ITP Score 550)

---
